Subject: Bottled Water Transition Letters for Homeowners Without Sampling Results

Dear Mr. Mohr:

The Santa Clara Valley Water District (SCVWD) recently advised of its intent to discontinue bottled water to certain residences for which there are no sampling results. SCVWD also requested Olin to evaluate whether these homeowners are eligible for bottled water pursuant to Orders of the Regional Water Quality Control Board (RWQCB). Attached are copies of Olin's letters to these homeowners, requesting an Access Agreement and advising that, as a courtesy, Olin intends to continue to provide bottled water to their homes for a reasonable interim period of time to enable Olin's consultants to sample their wells.

Olin is providing this interim transition bottled water service to homeowners with no sampling results as a measure of good will. We will not be able to supply free bottled water indefinitely, however, for any homeowner who does not timely return the requested Access Agreement and/or who does not qualify for bottled water under Orders of the RWQCB. Once these homeowners' wells have been sampled in accordance with the requested Access Agreement, Olin will advise them in writing of the sampling results and whether they are eligible for the continued receipt of free bottled water.

Please do not hesitate to call me if you have any questions.

Sincerely,
OLIN CORPORATION

Richard W. McClure, P.G., REM

Subject: **Permission for Access**
Well ID No. <#####>
Well Address: <well address>

Dear <Owner>:

The Santa Clara Valley Water District (SCVWD) recently advised of its intent to discontinue bottled water to your residence. The SCVWD has asked Olin to evaluate whether your residence is eligible for continued bottled water supply pursuant to Orders of the Regional Water Quality Control Board (RWQCB). Neither Olin's records nor those of the SCVWD reflect well sampling data for the well that serves your home at the above address. As a courtesy, Olin intends to continue to provide bottled water to your home for a reasonable interim period of time to enable its consultants to sample your well.

Please sign and return the attached *Permission for Access* (Access Agreement). A stamped and addressed envelope is provided for your convenience. If we do not receive a returned signed copy of the Access Agreement within three weeks from the date of this letter, your free bottled water supply will be discontinued.

Once your well has been sampled in accordance with the enclosed Access Agreement, Olin will advise you in writing of the sampling results and whether you are eligible for the continued receipt of free bottled water. Thank you for your anticipated cooperation in timely returning the enclosed Access Agreement.

If there are questions, please call (800) 295-6141 any time.

Sincerely,
OLIN CORPORATION
